"We will be working on TikTok in the upcoming quarter to target Generation Z."

Recommendations and Improvement

We will launch a remarketing campaign to target users who viewed the content and added items to their cart.

Users spend 1 minute and 8 seconds on my website, showing low engagement. I'll improve site speed and content to increase their stay.

A/B Testing: We'll experiment with different ads, testing variations in text, images, and colors to find the best combination for converting traffic into sales.

Mobile Experience Optimization: With 94% of users accessing the site via mobile, we'll focus on improving navigation and loading times for a smoother mobile experience.

Cross-Selling and Testimonials: We'll apply cross-selling techniques and include client testimonials to build trust and encourage users to complete their purchases.

Gradual Ad Budget Increase: After optimizing conversion rates and engagement, we'll gradually raise the ad budget to expand reach and capitalize on improved performance.

New Ad Designs: We'll use high-quality product images tailored to the target audience. Incorporating special offers and video ads can enhance engagement and capture more attention.

"We will be working on TikTok in the upcoming quarter to target Generation Z."

3. Email Marketing (For Future Use)

- Building an Email List: Collect emails through the website and social media.

- Automation: Follow-up emails after purchase to encourage repeat sales.

- Regular Promotions: Send discounts and new product collections.

- Segmentation: Personalized messages based on customer interests and behavior.
